

## Draughtsperson/ Design Engineer Job Specification

### The Company

First Engineering Services Ltd is a dynamic, expanding company specialising in the design, manufacture, installation, and maintenance of product handling equipment for the food, beverage and manufacturing industries.

### Our Mission

We are united in our commitment to manufacturing excellence, our vision to deliver the very highest quality and service to our customers through design and precision. To accomplish our mission, we endeavour to inspire and grow our people, and maintain a first-class working environment for all.

### The Role

Responsible for developing innovative design solutions for high-quality products and processes; ensuring they are practical and suitable for manufacture.

- Primarily based at our premises in Dalston, with occasional travel to Customer plants throughout the UK and Europe
- Full time, permanent, 40 hours per week with overtime regularly available
- Salary dependent on skills and experience

### Essential attributes

- Proficient in 3D modelling and AutoCAD
- Sound knowledge of engineering principles
- Good verbal communication skills
- Strong attention to detail
- The ability to work independently and as part of our team
- A positive and flexible approach to working

### Desirable attributes

- Experience with Solidworks
- Experience working in the food and beverage industry
